

Re: Docket# 98N-1038, "Irradiation in the Production, Processing,  
and Handling of Food." 2002 JUN 13 12:15

I want the FDA to continue prominent labeling of food that has  
been treated with irradiation. The label should be conspicuous and  
include the logo for irradiation.

Your Signature: John Lunn

Additional comments: I think food irradiation should be  
banned in general - I definitely need to know if something has  
irradiated so that I will NOT Buy it!!
